OUR APPROACH

At Knights LPC, we understand that starting a new business has many challenges and we welcome the opportunity to work with entrepreneurs to successfully navigate through them.

In response to this reality, Knights LPC is offering our new **SMART START™** Program.

WHY YOU SHOULD HIRE A LAWYER

Many startups are successful, however, statistically the harsh reality is more than half will fail.

Whether it's due to lack of motivation, direction or strategic business planning - each start up and small business have an abundance of unique obstacles that will test their sustainability.

So, why do you need a [lawyer](#)?

Hiring a good lawyer is one step in the process of ensuring your business is successful. A lawyer can help you navigate through complex legal documents, consult on major business decisions and facilitate effective equity financing.

Knights LPC offers a cost effective and efficient service that will help decrease your vulnerability as a small business and effectively protect your interests.
